Problem / User Need	EduGenie Response	Evidence / Expected Value
Students lack immediate academic help	On-demand Gemini-powered Q&A	Faster access to explanations
Difficult concepts are hard to understand	Level-based concept explanation	Content can be tailored to learner level
Manual quiz creation is time-consuming	Automatic quiz generation	Structured practice with configurable question count
Long notes take time to review	Text summarization	Concise key points
Students may not know learning order	Personalized learning path	Sequenced topic roadmap
AI model availability can change	Runtime model discovery and fallback	Improved resilience
API credentials/network may be unavailable	Offline/demo mode	Application remains demonstrable

Fit Statement

EduGenie directly maps the identified student pain points to five structured academic workflows, while the service layer addresses reliability concerns around a changing Generative AI model catalog.
